

Be Transformed

with *Shaklee*

My hubby is very allergic to bites, even those of mosquitoes which swell up like goose eggs! Yesterday he was working up high in the bucket truck and didn't notice a wasp nest tucked into a light head he went to remove. The wasps weren't happy, and he got bitten right under the eye! Luckily he carries Shaklee's NutriFeron in his lunch pail; he took 2 and when he came home a few hours later I couldn't even tell he had a bite! This happened to a coworker earlier in the summer and his eye was so swollen he was off work for a week!

Our entire married life my husband has suffered with seasonal allergies, but they have been non-existent with the use of NutriFeron. He takes a couple before mowing the grass and no more sneezing, wheezing or red, itchy eyes. Cindy Sullivan

Editor's note: NutriFeron is my main product to ward off colds and flu. This is what I rely on versus flu shots also. Works Great!! I take NutriFeron daily throughout the year; my goal is to have a "year-round" strong immune system!

In my 51 years on this earth, I have yet to stick to a daily skin care regimen, until now. I've hated my wrinkles for some time, but I knew plastic surgery wasn't an affordable option. Anyone else ecstatic about their results? Wow, I love this stuff, and I can afford it! This in less than 30 days, can't wait to see what 60 days using it will look like.

Julie's Results in only 5 days !

Ultra pure Tart Cherry extract clinically shown to optimize recovery and reduce exercise-induced muscle soreness which helps improve sleep quality. Recovery Complex also contains a patented pain relief blend to relieve pain caused by overexertion.

High School Athlete Has Success with "Recover"

Austin has a sports training class and he has been getting really sore and finding it hard to sleep, so we experimented with the new Performance "Recover" product. It's been a "hit"! The last two nights he's taken it at bedtime, it really helps him to relax, relieve the soreness and be able to fall asleep. He said that in the morning he didn't feel groggy. I hope that this message can get out to other kids who are having similar issues.

Amber Bernhardt

(Editor's note: Austin is 15; he took 1 capsule just before bed)

ECZEMA RELIEF

This is my friend's 4 year old granddaughter who recently developed bad patches of eczema on her arms and legs. The Doctor gave her a steroid cream and the eczema would temporarily get better and then would come back even worse. My friend was worried and decided to put her on Shaklee natural supplements and walla!

**After one week, the eczema was 70% gone.
And after 2.5 weeks it was nearly 100% gone.**

I am so happy that these great products have touched another soul. Congratulations!

She gave her

1. Energizing Soy Protein Shake
2. DTX complex (detox)
3. NutriFeron (Immunity)
4. Alfalfa
5. Vivix

And she took a bath with Basic H and after the bath she applied Shaklee Herbal Blend cream. Ng SooYin

After 1 week on Shaklee Products

HOT FLASHES GONE!

I have been using various Shaklee supplements for over twenty years along with many of their other products. In the Fall of 2016 I began experiencing symptoms of menopause, in particular hot flashes. After consulting with Lorri, I began using the Menopause Balance Complex in combination with OsterDerm cream and within a couple months the hot flashes completely disappeared. I am so thankful!

Michelle

The Most Common Deficiency in Most Diets is EPA and DHA!

Fish oil is known for its ability to help reduce the risk of heart disease, but those are not the only benefits of fish oil. Fish Oil plays a significant role in our overall health, especially in these areas:

HEART, BRAIN, JOINTS, PREGNANCY, SKIN, IMMUNE SYSTEM

Beware ... Not all fish oil is created equal

To ensure purity and potency, the fish oil in OmegaGuard undergoes a proprietary, state-of-the-art molecular distillation process that:

Concentrates natural, beneficial omega-3 fatty acids including EPA & DHA

Removes lead, mercury, arsenic, cadmium, dioxins, PCBs, and other contaminants

Minimizes odor and fishy aftertaste

The fish oil found in OmegaGuard comes certified by Friend of the Sea, an international conservation organization that follows strict criteria for sustainability.

More Science: The Telomere Effect

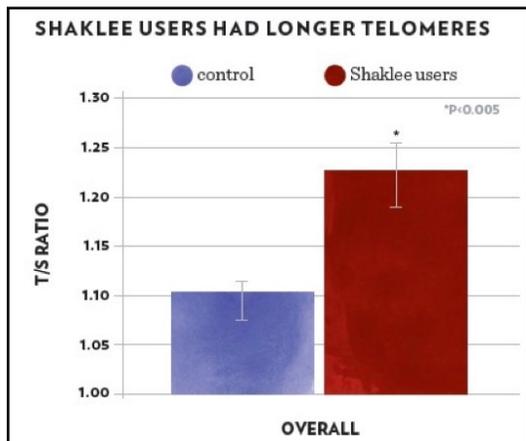

We (Elizabeth Blackburn, PhD and Elissa Epel, PhD) are the authors of The Telomere Effect. We are scientists who have been studying telomeres and how they are related to human behavior and health for over a decade. Telomeres are the caps that protect the ends of chromosomes, and as we age, telomeres grow shorter and shorter, preventing cells from being able to replenish tissue, which is so necessary to help live a

long, healthy life. **Very short telomeres are associated with physiological changes in the body that increase risks of the major conditions and diseases of aging.**

A statistical analysis based on the preliminary clinical study projects that an **80-year-old Shaklee supplement user would have the same telomeres as a healthy non smoking 41 year old.** The Telomere Study compared people using Shaklee supplements for at least 5 years to healthy nonsmokers living in the San Francisco Bay Area. Shaklee users had significantly longer telomeres. **In fact, the Telomere Study showed that Shaklee long-term supplement users had a 40% slower rate of telomere shortening across the adult age range compared to a healthy control group.**

Remarkably, the Shaklee population was only one-third as likely to have telomeres in the bottom quartile based on other studies that examined short telomeres and risk of mortality. This means they are less likely to develop early disease and mortality. They took a combination of Shaklee supplements; they were part of a community that helped support each other in good times and bad; and many of them had supplemental income that reduced financial stress.

More Science Supports The Shaklee Effect

The Landmark Study

Shaklee multiple supplement users had much healthier biomarkers for heart, brain, and cognitive health compared to non-supplement or single-supplement users.

YOUTH

"It's time! I feel like I need a drum roll or something.

Anyway, Here is my 30 day before and after using the YOUTH products! I'm so excited about my results. However, the physical results, while great, don't compare to the emotional results! I have regained so much confidence in myself! Thank you Shaklee for this amazing product!"
