

# SHAKLEE TIME

## Cystic Acne

I had beautiful skin and no acne at all as a teen. In my early twenties I began to develop acne. I was able to manage it with product, but by my early 30s it was out of control and became cystic acne. I tried medications, numerous skin care lines and treatments from dermatologists to estheticians. Nothing worked. I was eating a healthy diet at that time, taking supplements, exercising, and drinking plenty of water. My skin remained the same. I was introduced to Shaklee 16 years ago and started a very basic

regimen of supplementation: Vita Lea, B Complex, Sustained Release C, and OptiFlora. I

began to study nutrition and realized that I needed to tweak my diet as well. I began to eat more raw and lightly steamed vegetables, avoided dairy and sugar, and ate a low glycemic diet. When Vitalizer was introduced, I began taking it and added garlic to my diet. I also switched to Shaklee's skin care and have been using it for 16 years. The combination of all of these factors working together has had a profound impact on my body, especially my skin. When I began to feed my body on a cellular level with Shaklee products and moved to a healthier diet, my body responded. It didn't happen overnight, but the long term results are amazing! Gina F.

## It's Easier to Get Up in the Morning with Vitalizer

"I've been giving my whole family Vitalizer, including my two boys, ages 13 and 9. My boys have been getting right up in the morning, bright-eyed and bushy-tailed since taking Vitalizer! It used to be slow going in the morning here... and we had such a difficult time getting the boys going in the morning. No more! I used to feel a little groggy in the morning, too, and I wanted to sleep in until the last possible minute. Since taking Vitalizer, I wake up in the morning feeling well-rested and ready to get going! It's so nice! I have this wonderful sense of well-being—it's hard to describe. I just feel good! And my body feels so much lighter and easier to move around."

### VITALIZER CHOICES:

Men, Women, Prenatal, Seniors

I am so impressed with Shaklee's Vitalized Immunity. I was coming down with a cold and not feeling great, but I went to work for Lorri anyway. She immediately mixed up a "Magic Drink" for me. I could not believe how effective this was. I've used the Vitalized Immunity tablets since with the same amazing results. I'm SOLD! Carolyn

**VITALIZED IMMUNITY : Shaklee's answer to Emergen-C or Airborne. It is much more effective and faster acting! One tablet = 16 oranges!**

### YOUTH BB CREAM

**Evens - Corrects - Hydrates - Nourishes - Protects**

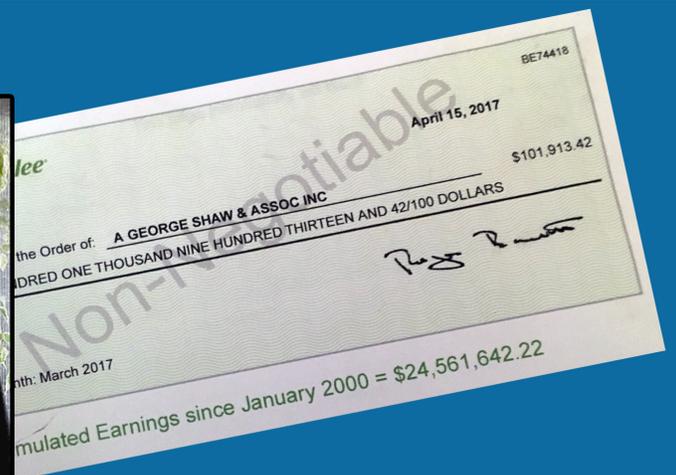

Get flawless, glowing skin. This multitasking 5-in-1 Beauty Balm is designed to do it all. Formulated with muscadine grape polyphenols to protect against damaging free radicals, plus vitamins C, E, and B5 to nourish. Green Algae helps improve firmness while an ocean-derived polymer creates a pollution-protection shield. Naturally derived zinc provides chemical-free SPF 30 Broad Spectrum UVA/UVB sun protection.

### DeDe Shaw's "Monthly" Shaklee Check!

Another Shaklee difference! This company has stood the test of time with 60 years of paying their distributors to advertise for them. They pay us for word-of-mouth advertising. DeDe has averaged around \$100,000 per month for decades! We don't misrepresent our income, it's not a dream, it's reality!

Editor's note: DeDe has been a special friend for many years. She is a midwestern gal who is the most dear, down to earth person you will ever meet. Her money has not gone to her head! Rather she continues to reach out to help others achieve their dreams.

**Since 2000 DeDe has earned \$24,561,642.00 ... that's an average of \$120,000.00 per month. How does this happen? The more people you help, the more money you will earn. The key is helping others!!**

## FOOT PROBLEMS .... plantar fasciitis?

Lorri's Testimonial: I discovered something amazing. Several months ago I started having problems with my feet ... primarily my heels. I thought, "Oh, no ... I didn't think this would happen to me!!" We were planning a trip to Israel that included lots of walking so I started buying various pads for my shoes which helped some but the pain was still there.

About this same time I decided to bump up my Vivix to 3 capsules a day. My thinking was: Vivix is the supreme "anti-aging" supplement so why not take advantage of this great product! I never thought that increasing my Vivix might impact my foot issue! Gradually my heel problem totally disappeared. The only change was the extra Vivix!!

## JOINT & MUSCLE PAIN CREAM

Eureka! I tried this simple natural cough remedy from Dr. Brouse and it worked ... not a single cough from my youngest all night. His lingering cough had been disrupting both our sleep for a week. Before bed, I rubbed this cream on the soles of his feet and then put socks on. Suni

### Comment from Dr. Brouse:

It is a naturopathic treatment using the mint extract readily absorbed via the microsomal method developed by Shaklee.

Yes, it's true ... Shaklee cleaners can save you money, plus they are non-toxic making them safe for you and your family, and safe for the earth. And the good news is ....

**THEY REALLY WORK !**

# YOUTH

“Look Younger Longer”  
I like that idea!

At age 72, anything that will allow me to look as young as I feel — well, let me at it!!

**HOWEVER**

it must be natural, healthy and not full of chemicals!

Now that's a BIG order ... but not for Shaklee!
