### Basic Differences between the NEW Soy and the NEW Plant Shakes:

SOY: the main protein source is soy (flavors are Vanilla, Chocolate, Strawberry and Cafe Latte)

PLANT: the main protein source is pea (flavors are Vanilla and Chocolate)

Both formulas include a proprietary blend of chia and pumpkin protein, digestive enzymes, low calorie, high protein etc!

Both formulas are DELICIOUS

Both formulas COST the same .... Which means a price "decrease" for the Plant Protein!

Dr. Blackburn makes this very affirmative statement as a result of the extensive Landmark I and Landmark 2 clinical studies. An excellent reminder that the cells of the human body are not fooled by advertising and marketing ... they ONLY KNOW QUALITY!

Thank you DR. Blackburn! A Nobel Prize winner in the field of medicine who has experienced the benefits of Shaklee products!

### WHY SHAKLEE?

"The Shaklee population is remarkably healthier than the general population, as shown by two studies, the Landmark Study on long-term nutritional supplement users, and the Telomere Study."

## OptiFlora DI: 4 strains totaling 10 billion bacteria supporting both Digestive and Immune Health

Here's my daughters eczema before and after Shaklee. She took NutriFeron, OmegaGuard, OptiFlora and GLA. She applied the Shaklee baby oil on her patches. It didn't take long for healing to occur. (fb friend's post)

### OPTIFLORA DI (#21320)

#### CLINICALLY PROVEN DIGESTIVE BALANCE AND COMFORT

Helps maintain digestive health and regularity. Helps reduce occasional gas and bloating.

#### CLINICALLY PROVEN IMMUNE SUPPORT

At least 70% of our immune system is in our gut. Adds good bacteria and helps restore the balance of intestinal microflora, supporting immune health.

#### 10 BILLION CFUs WITH 4 BACTERIAL STRAINS

This includes the powerhouse Bifidobacterium lactis HN019 clinically proven to support both digestive and immune health.

#### LABORATORY TESTED TO SURVIVE STOMACH ACID

Bifidobacterium lactis HN019 is shown to survive passage through the digestive tract to the large intestine, delivering maximum benefit to the gut.

Note: For optimum results include the OptiFlora "Prebiotic" powder which feeds the Probiotic good bacteria. The original OptiFlora pearl has different helpful bacteria.

*This is my sixth day on OptiFlora DI .... I'm in total disbelief with my results so far! I won't bore you with all the things I have tried for my digestive challenges through the years, but to make a very long and discouraging story short, I finally resorted to taking Lemon Juice and Baking Soda once or twice a day. Enter OptiFlora DI .... I received **immediate relief** and no need for the baking soda solution. I'm very encouraged and hopeful that I have finally found a **real solution!***

### I have an AMAZING and almost UNBELIEVABLE story to share:

My Grandpa has macular degeneration so when I got into Shaklee, I immediately got him started on Vivix. He has been getting shots in his eyes for the past 4 years for his vision. He had regressed to the point where he could no longer drive and couldn't read. He had only been on Vivix for 2 days before his next eye appointment .... he improved from 20/90 to 20/70! Surely this improvement could not have happened in only 2 days? Therefore, maybe it was the shots? ... however, previously with the shots he wasn't improving.

One week later he saw more improvement going to 20/60. I was beyond excited now!! A full month later he saw even more improvement .... 20/50!! By his second month on Vivix, he reached 20/30! He is back driving and reading!!

This is beyond incredible to me! He continues on Vivix but has added Vitalizer and Carotomax.

— Renae Karcher

Note: Vivix has been known to help numerous other health issues: Diabetes, Heart Disease, Cancer, Arthritis, Osteoporosis, Depression, Cholesterol, Alzheimer's and Dementia, and various Degenerative Diseases

Many of you know me, Zoe, as the “Shaklee Lady”, now I’ll give you **THE REST OF THE STORY.**

I spent over 35-years in the musical theater, performing in many Broadway plays and operas. I received Best Supporting Actress for my performance in Romeo & Juliet. At the Lawrence Welk Resort in California, the Artistic Director said, “I gave an outstanding performance of the highest quality”.

**It didn’t come easy as I had chronic sinus problems. I would have 3-shots weekly to boost my immune system for allergies.** Dr. Massari, Otolaryngologists, would open his office on his days off and would “drain” my nose before performances and that would help with my singing. Aspirin, helped eliminate the pain with the **bursitis**. In 1973, we were introduced to Shaklee; we didn’t have any idea how this simple one hour presentation would **Change Our Lives.** A short time after, I began taking Shaklee Alfalfa, Soy Protein, Formula-I and Osteomatrix. I was able to eliminate my weekly allergy shots and the bursitis pain in my shoulder went away. I could move my arms freely. No longer did I have to have my nose “drained” before performances and carry boxes of tissues with me. My allergies were under control. When Shaklee introduced **NutriFeron**, my allergy problems were eliminated completely. What a blessing! I would take Physique after voice lessons, rehearsals and performances

to recoup my energy.

My musical career began to take off as my health improved. My friends and people I knew from the theaters noticed the change and inquired, “What was I doing”? I shared “Shaklee” and what I was taking to eliminate my health issues.

Stress Relief helped with the daily routine of juggling between 3-children, 3-voice lessons weekly, dress rehearsals and performances. I had a full schedule! **Mental Acuity** helped with retaining music lyrics, etc. During the summer months, I would fly up to Ocean City and Atlantic City, NJ, to perform with orchestras. Even people I knew in those cities noticed the difference and would inquire about what I was doing, and so, I shared “Shaklee”.

Bob and I both have great health and we are not taking any medication thanks to Shaklee. We both love helping people to achieve better health.

Many Blessings .... **Zoe Dufour**
