Item: 21390

Team the GUMMIES Up with INCREDIVITES

Incredivites are the chewable multivitamin/multimineral for kids.

Providing 23 essential nutrients in a tasty grape flavor and sweetened with xylitol which does not promote tooth decay. Item: 21387

TESTIMONIALS SPEAK VOLUMES

Dear Lorri,

Over a decade ago while stationed overseas I endured several severe concussions. After I was medivacked back to America, I was diagnosed with **Traumatic Brain Injury** being predisposed to headaches, short term memory loss, and several other debilitating injuries. I suffered these side effects for many years until I started to take 2 MindWorks a day. Before taking MindWorks I would be talking to someone and forget a key word and then forget what I was trying to say. My wife, bless her heart, would then talk about something else so I would not be embarrassed. I used to lay my reading glasses down or my coffee cup down and have a hard time finding them. Now my wife rarely has to interrupt my conversation or help me find things. I hope and believe my short term memory will continue to improve while taking MindWorks. Thank you Shaklee and thank you Lord for this amazing supplement.

*JD informed me that he noticed his clarity significantly improve when he added **CarotoMax** to his daily routine. He also saw improvement with stress and anxiety when he added **B Complex**. JD is a hard working farmer and only in his 50's, so having good health is a priority.*

LIVER DIAGNOSIS NOT GOOD

When I met Steve he was 45 years old, and he was dying. His liver was not functioning, he was jaundiced and trembling. The doctors told Steve he had about a month to live.

I felt sick imagining what he and his family were going through. Then I remembered the Shaklee products I grew up around, so my first thought was, "there must be something in the Shaklee arsenal to help combat his liver disease." I called Bob and Zoe and they rushed Liver DTX and OptiFlora Pearls to my home in Georgia. The next day I met with Steve to give him the products.

As he used the Shaklee products, he started feeling better and by his next visit to the doctor, his liver was healing and regaining function. Steve is still among the living; his close call with death was over two years ago!. Thank you Bob, Zoe and Shaklee for playing a significant role in Steve's recovery. W. Cullen, GA

PAIN FROM SHINGLES

I wanted to share a testimony from a long time Shaklee member who is in his late 70's and is using Shaklee supplements. He came down with shingles and was in a fair amount of pain and itching. He decided to try the Shaklee Pain Cream well, he was so excited that the pain cream gave him such relief he called me to share how happy he was and ordered 2 more tubes. His name is Mark Lippert and he is a retired pharmacist.

Jane & Ken Depagter

Joint & Muscle Pain Cream provides temporary relief in minutes. Deeply penetrating to target arthritis pain, backaches, sore muscle, sports injuries and more. This non-greasy, menthol formula enables fast absorption and provides prolonged release action to affected areas. So effective and convenient to use - keep one for the medicine cabinet, purse, and gym bag. ITEM: #31051

Troy Dumais stood on the 3 meter springboard, breathed deeply, raised his arms, then exploded into perfectly executed twists, turns, and flips that resulted in not a splash, but a mere frothy bubbling of the water. It was one of perhaps millions of dives that ultimately resulted in a bronze medal in the 2012 London Games. He is one of the most decorated divers in US history. Troy is retired now, but definitely still pushing hard. After competing for 32 years in springboard and platform diving, and then starting another professional career spending 3 1/2 years at Parker University to become a Doctor of Chiropractics, he said, "the only way I was able to complete these doctoral years and to keep my **mental sharpness** studying for my last board exams is with Shaklee **MindWorks and Shaklee plant based Vanilla Life Shake.**" Congrats to Troy!

SURGERY POSTPONED "I've had worsening pain in both knees for years, and had the most painful knee injected with steroids. For years I took 3 Ibuprofen capsules, often three times daily. Last year the doctor said to stop taking the Ibuprofen due to bleeding and kidney function problems, and to take Tylenol instead. My orthopedic doctor advised me that I'd probably need my first knee replacement by January 2021. The Tylenol did nothing to ease my pain. I dreaded stairs (we have a split level home)...leaning heavily on the stair railing going down and pulling myself up every time. Getting in and out of cars was agony. Sound familiar? When Shaklee introduced the new Turmeric capsules, I thought "Why not?" I noticed some reduction of pain after the first week. By the end of the second week it was undeniable...it was helping. Today, I can say that I have no pain. **No pain at all in both knees.** I made no diet changes. I haven't lost weight. I am taking no pain medications of any kind and have had no medical treatments of any kind. **The ONLY change is that I started taking Shaklee Turmeric.** I never thought I'd be writing a testimonial but I can't deny what Turmeric has done for me" Debbie H, Minneapolis

Brian Herbert Jacobson: I've had **neuropathy** in my legs for years. I've been using virtually everything that Shaklee has to offer for years. Then Turmeric came along and the pain in my legs has been greatly reduced, almost gone. Taking one a day.

A proprietary formula of 10 billion CFUs from four bacterial strains including the powerhouse Bifidobacterium lactis HN019.

1 per day recommended

Optiflora DI:
Powerful Probiotic

Sinus Issues & Laundry?

Linda had SINUS problems most of her life. Nighttime was a particularly miserable time for her as she couldn't breathe and had to prop herself up on pillows and use nasal sprays and inhalers. her doctor told her the problem was a deviated septum.

She had surgery on her nose. Do you know what happened? No difference!

Yet, Linda now sleeps comfortably and with no congestion. All she changed was her laundry detergent. She changed from the toxic grocery store brands to one that was environmentally sensitive. (Shaklee Laundry Care Products) It made all the difference in the world for her. Interestingly enough, her children's allergies improved, too!

No more Asthma and Allergy Meds

Sophia M. shares: "I'm off asthma and allergy meds for the first time for as long as I can remember, thanks to Shaklee Products. I use Shaklee's **Vitalizer**, and lots of **Alfalfa**."

Allergy Induced Asthma

Christie shares: "I have conducted my own experiment with **NutriFeron** on my family. Bailey, 6 years old, has taken one every day for months now. I chose her because she's the only one that has been diagnosed with 'allergy induced asthma'. She has not shown any allergy symptoms nor has she had that barky cough."
