

27 PATENTS? How Can This Be?

No wonder so many people
LOVE "VIVIX"

Shaklee VIVIX users had **longer** telomeres which is an aging related factor.

Nobel prize winner in medicine, Dr. Elizabeth Blackburn, through statistical analysis, projects that an **80-year-old** Shaklee supplement (Vivix) user would have the same telomere length as a **41-year-old** who did not take supplements.

SLOW AGING AT THE CELLULAR LEVEL WITH VIVIX!

Pregnancy After 14 Years!

My husband and I have been married for 14 years. In the first 5 years of our marriage, we spent so much time with infertility doctors. I was told that I would not be able to have children without in-vitro. We have a boy and twin girls because of the in-vitro.

Then we started using Shaklee. I slowly stopped taking all my medication for severe allergies, asthma, and endometriosis. My body started healing itself. We then started the Vitalizer and continued to feel better. My entire family was now off all medication. Then my husband and I started **Life Shake, NutriFeron, Vivix and Vitalizer** and shortly afterward, I discovered that I was 10 weeks pregnant!

My dream has always been to become pregnant all by myself. I am so thankful for Shaklee.

Good Bye Corporate World Hello Freedom!

"When I was introduced to Shaklee I had built a very successful, lucrative career as the Vice-President of Merchandising and Design. But I found myself miserable, exhausted, and wanting more out of life. Two years after my husband and I started our Shaklee business part-time, I was shocked to lose my job of 17 years due to a "reorganization".

Quickly I decided I never wanted to be in that position again. I left the fashion industry to pursue Shaklee. NOW I could be doing a lot of things, but I choose to own and run a Shaklee business. After all the years in the corporate world, I learned that there is a better way. To be your own boss and to know that you are making a difference in people's lives ... that's a pretty awesome place to be!"

Vitalizer for a Brighter Morning

"I've been giving my whole family Vitalizer, including my two boys, ages 13 and 9. My boys have been getting right up in the morning, bright-eyed and bushy-tailed since taking Vitalizer! It used to be slow going in the morning here... and we had such a difficult time getting the boys going in the morning. No more!!

I, too, used to feel a little groggy in the morning and I wanted to sleep in until the last possible minute. Since taking Vitalizer, I wake up in the morning feeling well-rested and ready to get going! It's so nice! I have this wonderful sense of well-being—it's hard to describe. I just feel good! And my body feels so much lighter and easier to move around."

Vitamin D Benefits

By Jillian Levy, CHHC
June 9, 2020

More and more research shows just how important it is for overall health to get enough sun exposure — one reason being because the sun provides us with vitamin D. This is important because vitamin D benefits the body in so many ways.

According to a 2019 review, benefits of vitamin D are thought to include support for bone health and immunity, as well as resistance against chronic conditions, including heart disease, cancer, diabetes and depression — along with infections and viruses.

Given all of these vitamin D benefits, it's unfortunate that so many people (at least 40 percent to 80 percent of Americans, depending on race, for example) are lacking in this essential vitamin. It's estimated that up to 95 percent of most people's vitamin D comes from casual sunlight exposure. However, because many people today don't spend time in the sun each day, or regularly consume foods that provide enough vitamin D (which is hard to do), most adults — and children too, even infants and breastfed babies — are now encouraged to supplement with vitamin D.

NOTE: Dr. Anthony Fauci, MD went on record as saying that he takes 8-9,000 units of D3 in the winter, which is way above the unreliable RDA numbers. **One's ability to absorb vitamin D3 is greatly reduced when overweight or have darker skin.**

Natural Sun Exposure For Your Vitamin D ?

Trucker accumulates sun damage on his left side!

**WRINKLED SKIN
AGE SPOTS
SKIN CANCER
DARKENS SKIN**

Here's a look at **9**
of the most common issues that are
associated with a vitamin D deficiency:

1. Skeletal problems
2. Autoimmune disease
3. Various cancers
4. Brain function/Nervous system
5. Heart disease
6. Upper respiratory infections
7. Inflammation
8. Inflammatory bowel disease
9. Obesity

Vita-D3 by Shaklee 2,000 IU of Vitamin D3

Backed by two Shaklee clinical studies and packed full of the "sunshine vitamin" in its most potent form. Vita-D3 raises the levels of vitamin D in your blood to support overall health, bone health, heart health, and immunity. #21364

Comments from Janice:

"I know I can trust I am getting what the label says! Without any fillers."

Immune Mocktail

- 1 packet Triple Defense Boost
- 8 oz. Sparkling water
- 2 oz. Pineapple or Cranberry juice
- A squeeze of lime or lemon
- Ice Cubes

Be creative ... add the Energizing Tea, or one of the Hydrate products and if you want to boost your Vitamin C, the Vitalized Immunity Tablet is ideal in place of the juice.

Radiance C+E

Radiance C+E is a powerful patented formula of 20% pure vitamin C, vitamin E, plus raspberry cell extract to **plump, brighten, and visibly reduce the appearance of lines and wrinkles.**

Radiance C+E reduces the appearance of **age spots**, smooths skin texture, and improves overall skin tone. For even better results, add to the Advanced Anti-Aging Regimen. Apply after Perfecting Skin Toner and before YOUTH Activating Serum.

Convenient single-dose capsules are plant based, vegan, and 100% biodegradable and allow for a preservative-free formula. YOUTH products are all 100% vegan and cruelty free.

Powered by: 20% Pure Vitamin C, Vitamin E, plus Raspberry.

IT'S MORE THAN A "HAND WASH"!

The Shaklee "Hand Wash" is an amazing **BODY WASH!**

Hello from Idaho!

Just a few words about Shaklee's wonderful Hand Wash!

I've been using Shaklee products for years. But I really started using the Hand Wash just last year. Because we had to wash our hands at every turn, my hands were so dry, they hurt. Once I started using the Hand Wash my skin wasn't nearly as dry even with Idaho's cold dry winters.

I've also used this product in my showers and baths as a body wash. My skin and hair are so soft and smooth. **Yes! Used it on my hair. Its great!**

So when I order my vitamins, I always order more Hand Wash. Thank you Shaklee and Lorri. Debbie S

MEOLOGY

Personalized Nutrition Packs

<https://meology.shaklee.com/>

Just a quick little reminder to take the 6-7 minutes or so and take your Meology assessment. I found out something interesting! I am 47 and have been taking the Women's Vitalizer for almost 2 years now. When I took my assessment, it suggested Vitalizer Gold! Of course I got bent outta shape because hey! Stop rushing my age! I'll switch in 3 years when I actually turn 50! When I read the "why" it made PERFECT SENSE. I happen to be pescatarian, and there are certain vitamins and minerals

you miss out on when you don't eat meat. So the Vitalizer Gold makes up for that. I love the new Meology because they analyze your answers and then explain why they choose a specific supplement for you. I now happen to be just fine with taking the Vitalizer Gold! Lori D.

Do you take vitamins but not a MULTI-VITAMIN? If you answered “yes” this article is for you.

The Impact of Taking a Multi-Vitamin Supplement on Chronic Diseases

from a presentation by
Dr. Jeffrey Blumberg, PhD, Professor at Tufts University

Studies show that by JUST the addition of a multivitamin supplement daily:

- 50% reduction of stroke
- 57% reduction of high blood pressure
- 21% reduction of myocardial infarction (heart attack) in men and 34% in women
- 32% reduced risk of arterial disease (study of 46,000 health professionals)
- 70% reduced risk of colon cancer (the more years of past supplementation, the greater the reduction of risk)
- 45% reduction of colorectal cancer
- 31% reduction cancer risk (study of 13,000 men and women. . . with supplement containing vitamin C, vitamin E, selenium, and zinc in same doses as would be found in a multivitamin)
- 37% reduction of all forms of mortality risk
- 50% reduction of days of infectious disease (study of immune system. . . found improved T killer cells, lymphocytes, interleuken 2, antibodies. . . all significantly improved with multivitamin)
- 82% reduction of incidence of infection in Type 2 diabetes and 100% reduction of days missed work if taking multivitamin
- 42% reduction of risk of multiple sclerosis (MS) (vitamin D)
- 28% reduction of risk of rheumatoid arthritis in women and 34-35% in men
- 70% decline in neural tube birth defects (only 19% decline by increasing consumption of foods with B vitamins)
- 30% reduction in neuroblastoma (nerve cell tumors in children) if multivitamin taken in early pregnancy; 40% reduction if supplement in 2nd and 3rd trimesters
- 85% reduction in diabetic-associated birth defects in women with diabetes
